RRIMË KËMBË*
CLOCKTOWER OF PREZË

*A PLAY OF WORDS IN ALBANIAN COMBINING THE MEANINGS OF "RECOVERY"
AND "STANDING TALL" AGAIN

This magnificent tower was built more than two hundred years ago in Prezë. Its stone walls rise above a hill of ancient olive trees.

From its balcony you could once have a bird's eye view of the beautiful natural scenery of the surrounding fields and mountains.

But the Preza Tower and its balcony were badly damaged by the November 2019 earthquake.

Your help is needed so that the tower can stand tall again now and in the future.

Combine the pieces with each other and help the recovery of the beautiful Preza Tower! Good luck!

The "Clocktower of Preza is being restored by CHwB Albania within the project "Conservation and Reinforcement Interventions in the Castle of Preza, Tirana", with the support of US Embassy Albania Ambassadors Fund for Cultural Preservation, through CHwB Albania.
